

EDUC 161

WINTER 2018

Join our class and help us make a difference!

This winter quarter, we are excited to announce, that the Education 161 class has the amazing opportunity to design and run a Science Night at a local Middle School. This collaboration will not only be an amazing experience for you, but you will be inspiring the love of science to many others. Our class will focus on learning how to engage students in active, hands-on, minds-on learning with our efforts culminating with an actual running of our own Science Night at a local school. To see our collaborative work come to fruition will be the highlight of the class!

A Unique Opportunity

This unique opportunity allows for fieldwork to be done in class as we work collaboratively with a school to respond to a need of literally designing a learning environment that we will run at the partner school. It is such a fantastic opportunity you don't want to miss!

**IT'S TIME TO
GO FOR IT!**

**Bring the joy of
science to a local
community**

**Design and run a
science night at a
local school**

**Help collaborate to
design a school
arboretum**

EDUC 161

**DISCOVERING SCIENCE IN
OUT OF SCHOOL HOURS**

TTH 12:30-1:50

**LET'S DO
SCIENCE**
